Timing/Results:

- We will be hand timing the meet with two separate methods to hopefully be as accurate as possible. First method- Computer with spreadsheet that logs each time as a runner passes. Second method- a handheld timer with a printer.
- Athletes will be given a popsicle stick as they finish the race and will have to check in their popsicle stick at the scores table to record their place. Their place will then get matched with the times from the two timing methods. Popsicle sticks are the athletes to keep/throw away.
- Team scores will be sent out later Tuesday night or Wednesday morning.
